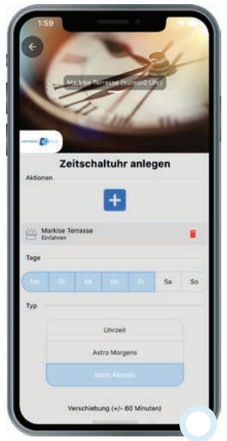
EVERYTHING AT A GLANCE:
CentralControl

Becker’s smart control solutions.

CENTRAL CONTROL

BECKER
for you. forever.

SIMPLY CLEVER.
MORE TIME FOR THE IMPORTANT THINGS.



The smart roller shutter and sun protection hub CentralControl CC41 connects all Becker radio systems. This makes it possible to control and monitor roller shutters, sun protection and other building services as conveniently as possible – from anywhere.

The functions in detail

- Perfect for retrofitting and upgrading all Becker radio products
- For controlling roller shutters, privacy and sun protection systems, garage doors, lighting, household appliances and much more
- Commissioning, configuration and operation possible via the free CentralControl app
- Connection to the internet possible via LAN and Wi-Fi
- All Becker radio systems can be integrated: Centronic, CentronicPlus and B-Tronic compatible with the respective USB stick
- Data is stored locally on the device; access while on the go is optionally possible via secure remote access
- Operation via smartphone, tablet or desktop
- Parallel operation of homee and CentralControl possibl
- Voice control via Amazon Alexa possible
- Certified Matter® bridge

matter

Handheld transmitter
for your added flexibility and comfort

Smartphone, tablet, PC or notebook
so you can control your smart home while you‘re on the move

Simple
operation.
As individual as you are.

Wall transmitter
have their fixed place and respond at the touch of a button

Sensors
for more safety and clever functions

Voice control
gets your home moving on in motion on call

SIMPLY SMART.
FOR TOMORROW‘S HOME.

The CentralControl CC11 is a smart compact control unit for roller shutters, sun protection and other applications that operates entirely locally – without internet access and with no Wi-Fi required. Commissioning is completed in just a few steps via smartphone using Bluetooth® – with no complex network settings for an internet connection required. Once set up, time programs and sun protection settings run reliably and automatically.

The functions in detail

- Local control of roller shutters and sun protection without internet or Wi-Fi
- Perfect for retrofitting and upgrading Centronic and CentronicPlus radio products
- Quick setup and operation via Bluetooth® and free app
- Automatic time programs and sun protection functions
- Operation via app or directly on the device
- Integrated night light, optionally with astro function
