CLEVER AUTOMATION
WITH THE POWER OF THE SUN.

Solar solutions **from Becker.**

SOLAR ENERGY

BECKER
for you. forever.

ENERGY-AUTONOMOUS AUTOMATION.
SIMPLY IMPLEMENTED.

Our solar-powered drives, sensors and controls offer a forward-looking solution for a wide range of applications. Their self-sufficient power supply eliminates the need for extensive wiring and regular battery replacements, saving time and money. Easy installation provides maximum flexibility, while solar energy ensures reliable and efficient operation. Choose smart automation that is self-sufficient and built to last!

SOLAR ENERGY
by BECKER

SolarKit SK460
Drive solution for roller shutter and screen applications

- Operating mode switchable between roller shutter and screen operation
- Two intermediate positions programmable
- Blockage detection in both up and down directions
- Weather stations and light sensors can be learned
- Noise minimization through soft start and stop
- Threshold values can be adjusted via the transmitter
- Integration into Becker CentralControl possible
- More than 100 operating cycles possible with a single battery charge*
- Control and charging electronics integrated into the drive
- Burglary resistance when using rigid shaft connectors
- Compact installation directly in the roller shutter element

SensorControl SC561 PLUS and SC861 PLUS
Sun and sun/wind sensor

- Integration with Becker CentralControl possible
- Compatible with the homee smart home system
- Individual, group or central control
- Available in Centronic and CentronicPlus versions
- Integrated transmission indicator light
- Control button directly on the device
- Adjustable sensor base for optimal mounting
- For all roller shutter and sun protection applications

SensorControl SC631 PLUS
Window-mounted light sensor for roller shutter and sun protection applications

- Enables control of Centronic and CentronicPlus drives and receivers
- Individual, group or central control
- Sun shading and twilight functions
- High-resolution e-paper display
- Control buttons directly on the device
- Switching between manual and automatic mode directly on the device
- Easy mounting directly on the window pane
- External charging via USB connection possible

* Verified by testing at our in-house test centre. Testing was conducted at rated torque in a unit with a height of 2 m, corresponding to a typical door height.

CENTRAL CONTROL

CentralControl CC41
Smart control unit for roller shutters and sun protection

- Control of roller shutters, sun protection, lighting, household appliances and more
- Local data storage on the device, with optional secure remote access
- Setup and operation via a free app
- Voice control via Amazon Alexa
- Certified Matter® bridge

CentralControl CC11
Smart Bluetooth® compact controller

- Local control of roller shutters and sun protection without internet or Wi-Fi
- Quick setup and operation via Bluetooth® and a free app
- Automatic time programs and sun protection functions
- Operation via the app or directly on the device
