

## PLUG IN. SET UP. DONE.

CentralControl CC11

The smart compact controller that can do more.

**BECKER**  
for you. forever.

## LOCAL CONTROL. READY TO GO RIGHT AWAY.

The **CentralControl CC11** is a **smart compact controller** for shutters, sun shading, and other applications that operates entirely locally - without internet and without requiring Wi-Fi.

Setup is completed in just a few steps via **smartphone using Bluetooth®** - without any complicated network settings for an internet connection. Once configured, **time schedules** and **sun protection settings** run automatically and reliably.

End users can control the device either via the **Be:You app** or directly using the operating buttons. The button functions can be configured flexibly and individually — for single devices as well as for entire groups.

## THE INSTALLER APP FOR THE CC11: BECKER TOOL AS A COMMISSIONING AID

- Easy commissioning and maintenance of CentronicPlus installations
- Programming transmitters and assigning channels in CentronicPlus installations
- Linking sensors with drives or controls in CentronicPlus installations
- Saving and deleting freely selectable intermediate positions
- Adjusting device names for correct display on digital control units
- Saving and deleting end positions and running times
- Easy activation/deactivation of drive-specific special functions
- System-wide operation across the installation
- Management of drive and control locks as well as winter modes
- Transfer of settings and time functions to additional devices

PLUG & PLAY,  
UNDERSTOOD IN SECONDS.

NEW

## GOOD REASONS TO CHOOSE CC11

- Installation in just a few steps (**Plug&Play**)
- Commissioning, configuration, and operation via **a free app**
- Operation **without internet or network**
- **Time schedules** and **sun protection settings**
- **Can be used for Centronic and CentronicPlus radio systems** without additional modules or USB sticks
- Suitable for **retrofitting**
- Automatic mode can be activated/deactivated directly on the control unit

BE:YOU: THE USER APP FOR  
CONTROL & CONVENIENCE

Download  
Be:You App

- System-wide time control
- Up to 200 switching times can be programmed for up to 50 Centronic/CentronicPlus devices
- Operable without internet
- The smartphone becomes a handheld transmitter within Bluetooth® range
- Flexible local operation directly on the device
- 5-hour power reserve, so the time is retained during brief unplugging or power outages

**BECKER**  
for you. forever.
